

**LEARNING LINKS**  
— FOUNDATION —  
WHERE EDUCATION MEETS LEARNING

## Vision

To foster purpose and progress  
by unlocking lifelong learning

## Purpose

Transforming learning at every  
lifecycle to optimize potential and  
opportunity.

*We inspire true learning from an early age and create links  
to enable learning across different stages of life.*

**Learning Links Foundation**, founded in **2002**, is a non-profit organisation dedicated to enriching lives through learning.

# Learning Pathways

Our educational, training, skilling and self-enhancement solutions create learning links throughout life, across all age groups and communities, while harnessing knowledge, innovation and technology.

## Education Solution for Lifelong Learning

- **Activate the learning gene**
- Focus on Learning with understanding: Building Foundational Skills in Students

# *Road to School, Karnataka*

## About the program

**Road to School** is a holistic child development program that addresses the issues of learning gaps amongst government primary and middle school students in Karnataka and builds a fundamental framework for holistic development of the student that has been moved through the labyrinth of Primary and Upper Primary school. The direct beneficiaries of Road to School program are students in the age group of 6 – 14 years studying in Government primary and upper primary schools.

The Vision of the Road to School Program is to “**Provide holistic development opportunities focused on quality and inclusion leading to education as a Social Leveler**”. Road to School is a Global Program aligned with United Nations Global Sustainable Development Goals, aligned to National agenda of improving quality of education amongst underprivileged children from Government Schools.

Learning Enhancement program for primary and middle school with focus to nurture both scholastic and co-scholastic development of children using sustainable and scalable model. The program focuses on enhancing foundational skills and learning outcomes through in-depth, customized interventions on Foundational literacy and numeracy.

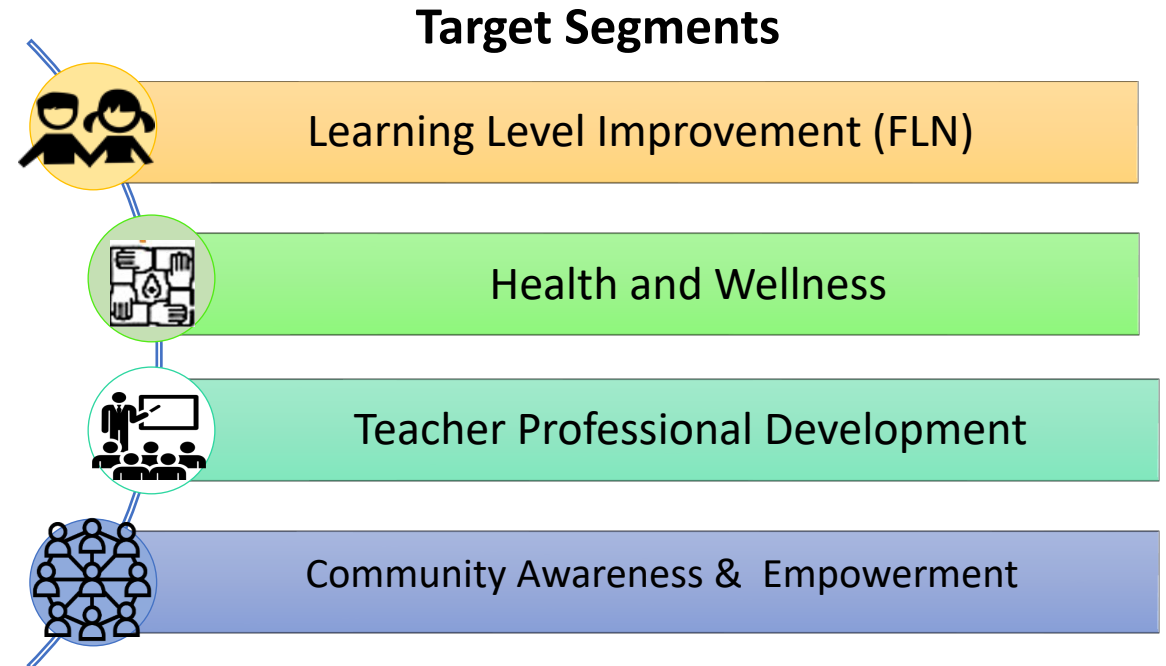

# Program objective and major components

Provide holistic development opportunities focused on quality and inclusion, leading to education as a Social Leveler. Project aims to improve student performance and bridge learning gap: Enhance their wellness behavior and bring awareness in the community about quality education.

The key Components of the Program:

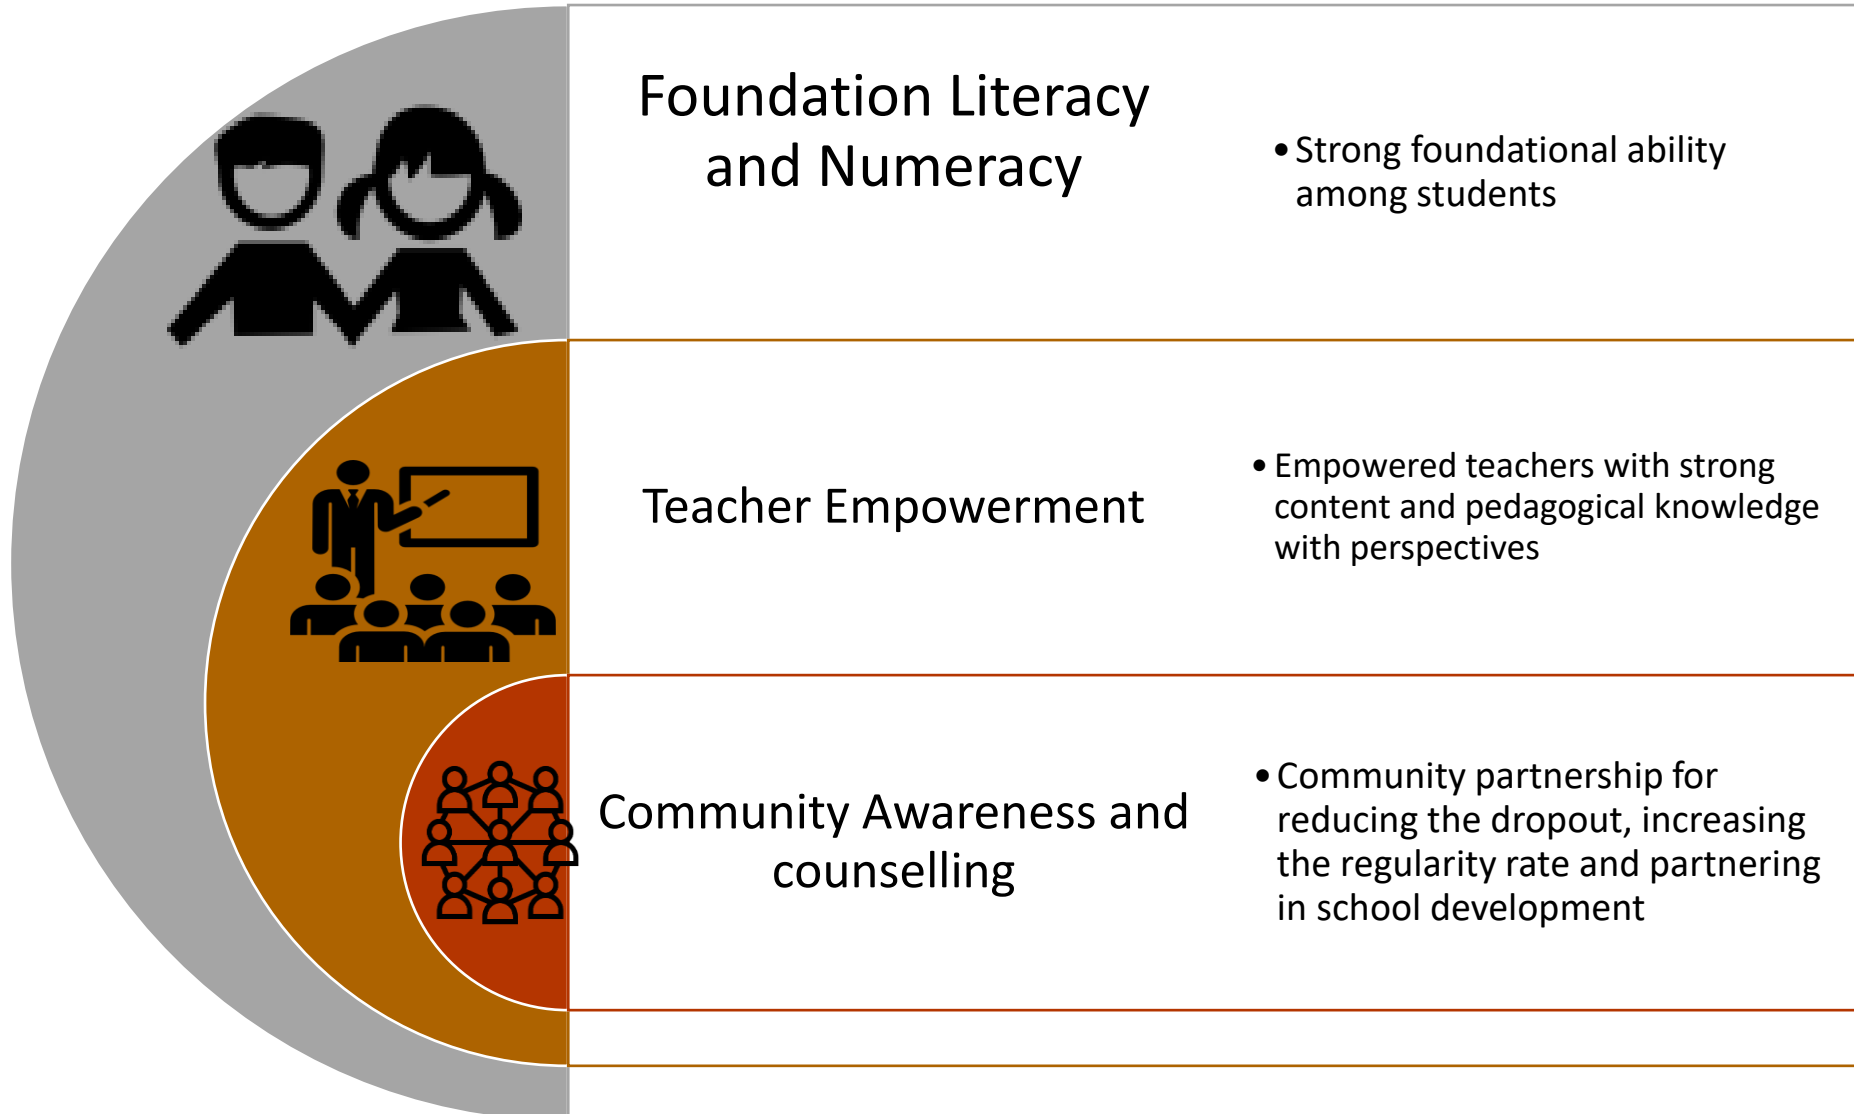

- Learning Level Improvement focusing on Foundation Literacy and Numeracy
- Improve awareness on health, hygiene, wellbeing and development of life skills.
- Teacher Professional Development through training and onsite support
- Community awareness and empowerment through collaboration and partnership

# Beneficiaries reach and scale
