### **Long-term Objectives of Margadarshi Society**

The overarching objective of the society is to reunite the children living on the rail platforms with their parents and families with an emphasis on preventing the children, giving no formal training to most vulnerable children once they are resettled, to revert to their homes. Emphasis is also given to preventing of trafficking among children living on their own on the streets.

### **Background information on Margadarshi Society**

MARGADARSHI is a registered society, working for the most vulnerable children in the society, exclusively working for street children and child labours. The genesis of the organization stems from its vision of helping and enabling those children who are rendered homeless and who live in the most difficult circumstances in their struggle for survival, by factors which are most often, out of their control. The experience of Margadarshi shows that even when the children leave their homes, it is a complex set of underlying factors which are instrumental in their decision to abandon their homes to survive on their own. Though only a few children are orphans neglected rag pickers and vulnerable, in the true sense of the word, all of them ultimately end up living the lives of orphans. Margadarshi started initially covering Kalaburagi and Wadi (Karnataka). The need assessment started with informal visits to the railway platform, bus stand and market contacting the children. Slowly a rapport with the children was established. The children were provided with shelter and food and gradually recreational visits outside the railway platforms such as picnics to nearby places were organized and were introduced to non-formal education. These initial attempts helped the organization to create a climate necessary for the children to open up and divulge the details of their history in terms of where they were from and their reasons for leaving home.
